Petition to support the Climate Change Accountability Act

We the undersigned residents of Canada draw the attention of the House to the following:

WHEREAS Canadians are concerned about inaction by our federal government to address climate change and the impact of climate change on their day-to-day lives;

WHEREAS the federal government cancelled the EcoEnergy Retrofit Program that saved Canadians millions of dollars in future energy costs by making their homes more energy efficient;

WHEREAS the federal government gives billions of dollars in taxpayers’ money to the oil and gas industries in subsidies;

WHEREAS the federal government needs to invest in an efficient and reliable public transit system to reduce gridlock and pollution and allow Canadians to spend less time stuck in traffic every day

THEREFORE, we call on the Government of Canada to support the New Democratic Caucus’ Climate Change Accountability Act - a law that would reduce greenhouse gas emissions and hold the government accountable.
