

A PETITION TO THE HOUSE OF COMMONS

Over-Charging on Gasoline in Canada

We, the undersigned citizens and residents of Canada, draw the attention of the House of Commons to the following:

Whereas The Government of Canada has been aware since 2007 that consumers of gasoline in Canada have been paying for undispensed fuel;
Whereas Since 1999 consumers of gasoline in Canada have been over-charged an average of \$20 million per year, representing \$240 million in revenue for the Oil and Gas Industry for product they never delivered;
Whereas The Oil and Gas Industry already receives multi-billion-dollar tax incentives, grants and subsidies from the Government of Canada;
Whereas In 2008 the Minister of Industry promised Canadians that he would address gas pump over-charging;
Whereas The Government of Canada has yet to protect consumers of Canadian gasoline from over-charging.

Therefore we, the undersigned, citizens and residents of Canada, call upon the Government of Canada to immediately implement meaningful protections for consumers of gasoline in Canada and augment the existing inspection regime; recover, either directly or indirectly and on behalf of consumers of gasoline in Canada, the \$240 million in over-charges collected by the Oil and Gas Industry; create an Oil and Gas Ombudsman, with power to monitor the Oil and Gas Industry, who will ensure that consumers are protected.
