FACT
The Criminal Code of Canada states a child doesn't become a human being until "it has completely proceeded, in a living state, from the body of its mother".

AS A RESULT, ABORTIONS CAN HAPPEN IN CANADA UNTIL BIRTH—AND NEARLY 100,000 ABORTIONS HAPPEN EVERY YEAR.

FACT

Abortion violently ends the life of a developing human being in the womb, as science and embryology illustrate. Justin Trudeau refuses to consider this scientific evidence.

Keith Moore's embryology textbook, *Before We Are Born: Essentials of Embryology*, states definitively: "[The zygote], formed by the union of the oocyte and a sperm, is the beginning of a new human being." (7th ed).

FACT
Justin Trudeau writes in his memoirs that, "We made the Liberal Party a truly liberal party when delegates decisively endorsed a motion defending a woman's right to choose whether to have an abortion."

This includes forcing all Liberal MPs, even pro-life MPs, to vote against any protections for life in the womb. Justin Trudeau said (according to the CBC) that, "I have made it clear that future candidates need to be completely understanding that they will be expected to vote pro-choice on any bills."

FACT

Justin Trudeau is so extreme on abortion he announced that he would consider breaking up the country if Parliament passed legal protection for human life in the womb. He stated that, "If at a certain point...we were going against abortion...maybe I would think about wanting to make Quebec a country."
