## *A PETITION TO THE HOUSE OF COMMONS:*

## A CALL FOR THE RIGHT TO KNOW: SUPPORT BILL C- 408
## MANDATE WARNING LABELS ON HOUSEHOLD PRODUCTS CONTAINING TOXIC SUBSTANCES

**We, the undersigned Citizens of Canada, draw the attention of the House of Commons to the following:**

**WHEREAS,** Canada's current system of labeling hazardous materials in common household products does not include confirmed or suspected carcinogens that are toxic to human health and damaging to the environment**;**

**WHEREAS,** consumers often do not realize what types of harmful materials or the level of danger they are exposed to when purchasing and using various products, such as food, household cleaners, and cosmetics;

**WHEREAS,** a more comprehensive labeling system warning of potential harm would help to preserve safety, empower consumers, and encourage the market to sincerely consider the dangers of the chemicals and substances put into the products in the first place;

**WHEREAS**, Canadians would also be in a better position to put pressure on the industry and the federal government to make it illegal for companies to use toxins and carcinogens in their products without proper labeling in a similar manner as the legislation already passed in the European Union and the State of California;
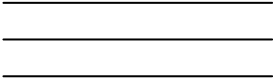

**THEREFORE**, **your petitioners call on the Government of Canada to support the Right to Know Bill C-408 (Peter Julian: Burnaby-New Westminster).**
